THE PERFORMING ARTS

Join us for a most wonderful evening of many...
This extraordinary presentation will be performed from 12:00pm to 1:30pm and will merge with creative activities and journal prompts, and help the audience do so in honor of the anniversary of the first performance of the arts in 1900 in Ojai.

PROGRAMS

As we become a community where we take time to sit still, take a look at the TOArts programs that...

Advanced Theatre, Youth Arts Leadership, Visual Arts, Activities

Kids and the Arts, Blue Performance, TOArts Presents

Welcome To Our Theater

WHO WE ARE
The Thousand Oaks High School Theater Department is dedicated to excellence and is constantly striving to provide hands-on, professional experiences for all students. We are a community dedicated to inclusive storytelling and exploring different identities and experiences. We are a place where you can collaborate with like-minded people and encourage your creativity to thrive. A safe space for all people to find not only themselves but also support in each other.

THE

DANCERS

Madrone's new dance studio is up and running! All our Mustangs take classes weekly. Students experience new choreography and attend dance weekly. They learn dances such as jazz, line dancing, flamenco, and much more!

THE DANCERS

Madroña's additional dance class provides an opportunity for students to enhance their performance experience. These are taught weekly by one of our community partners, a non-profit organization, *Dancing With the Future Stars*.

THE SCIENTISTS

Madroña's science lab is a vibrant space filled with microscopes, beakers, and eager young minds exploring the wonders of the world through science.

Students will have the opportunity to delve into the exciting world of coding actively engaging with cutting-edge 3D printers in Madroña's Engineering Lab!

THE SCIENTISTS

THE MUSICIANS

At Madroña, our students engage in a dynamic wind ensemble class, or an interactive music class with our Madroña music teacher, Mrs. Sobrino. Many students take additional classes – strings, band, and choir!

THE GARDENERS

At Madroña, our learners are immersed in hands-on gardening experiences, where they not only cultivate their green thumb but also explore the wonders of native plants and much more within our garden space.

GRIFFITH OBSERVATORY.

At Madroña, students from Kindergarten through 5th grade embark on enriching excursions, including visits to the Griffith Observatory, MOXI Museum, Civics Art Plaza, and other engaging destinations!

THE EXCURSIONS

At Madrone, students from TK through 5th grade participate in PE. Ms. Hargrave, our district PE teacher, is a welcome addition to our staff!

THE ATHLETES

THE UNIFORM

WE ARE MADROÑA ACADEMY of the ARTS AND SCIENCES

Where exploration meets excellence!

THANK *YOU*

We hope to progress from Madroña Elementary to Madroña Academy of the Arts and Sciences and to officially become a MAGNET school (2024-2025), built upon our existing foundation that we have begun and expanded this school year.
