

Mary E. Samples, Assistant Superintendent

July 18, 2018

Dear Operations Cabinet Member:

Attached is the Annual Informational Flyer for parents of Special Education Students. It was developed by our Community Advisory Committee (CAC) and is revised each year for districts to send to all parents of students with IEPs at the beginning of the school year.

The CAC recognizes that you are very busy and have numerous items that need to be sent to families throughout the year. Several years ago, the Operations Cabinet and CAC mutually agreed that this would be the one special educational informational item that the districts would disseminate to all Special Education families.

We hope that this flyer is arriving early enough in order for you to include it in your back to school packets, first of the year mailings or electronic disseminations to parents.

Thank you,

Mary E. Samples
Assistant Superintendent
Ventura County SELPA
