Administrative Regulation

AR 6145.3

Instruction

Addition or Deletion of a CIF Sport

The Governing Board recognizes that there are many criteria to consider with the addition or deletion of *a CIF sport*. When a written request is made for the addition or the deletion of a CIF sport, the Superintendent or designee shall develop an ad hoc committee, made up of district stakeholders, such as Athletic Directors, principals, parents, coaches, and community members to conduct a feasibility study that considers facility usage, start up and maintenance expenses, availability of competition, administration of programs, student body interest, and community support.

The committee will review the data they have gathered, complete the form **Addition or Deletion of a CIF Sport – Considerations**, score the rubrics, and hold meaningful discussion based upon this information. Should the scoring of the rubric lead to a low score in an area, the committee will address the feasibility of mitigating the concern. If mitigation is not possible, the committee will so state.

(cf. Exhibit 6145.3)
