Board Policy

BP 4040

Personnel

Employee Use Of Technology

The Governing Board recognizes that technological resources can enhance employee performance by offering effective tools to assist in providing a quality instructional program, facilitating communications with parents/guardians, students, and the community, supporting district and school operations, and improving access to and exchange of information. The Board expects all employees to learn to use the available technological resources that will assist them in the performance of their job responsibilities. As needed, employees shall receive professional development in the appropriate use of these resources.

- (cf. 0440 - District Technology Plan)
- (cf. 1113 - District and School Web Sites)
- (cf. 4032 - Reasonable Accommodation)
- (cf. 4131 - Staff Development)
- (cf. 4231 - Staff Development)
- (cf. 4331 - Staff Development)
- (cf. 6163.4 - Student Use of Technology)

Employees shall be responsible for the appropriate use of technology and shall use the district's technological resources primarily for purposes related to their employment.

- (cf. 4119.25/4219.25/4319.25 - Political Activities of Employees)

Employees shall be notified that computer files and electronic communications, including email and voice mail, are not private. Technological resources shall not be used to transmit confidential information about students, employees, or district operations without authority.

- (cf. 4119.23/4219.23/4319.23 - Unauthorized Release of Confidential/Privileged Information)
- (cf. 5125 - Student Records)
- (cf. 5125.1 - Release of Directory Information)

Online/Internet Services

***Note: 20 USC 6777 mandates that districts adopt an Internet safety policy as a condition of receiving technology funds under Title II, Part D of the No Child Left Behind Act (20 USC 6751-6777) for the purpose of purchasing computers with Internet access or paying for direct costs associated with accessing the Internet. 47 USC 254 mandates that districts adopt an Internet safety policy in order to qualify for federal universal service discounts for Internet access (E-rate discounts). Although these requirements focus on measures designed to protect students using district technology (see BP/AR 6163.4 - Student Use of Technology), they also require policy

that affects adult use of any district computers with Internet access. Districts applying for any of these funds must certify that district policy requires the operation and enforcement of a "technology protection measure" that blocks or filters Internet access to visual depictions that are obscene or child pornography. ***

The Superintendent or designee shall ensure that all district computers with Internet access have a technology protection measure that prevents access to visual depictions that are obscene or child pornography and that the operation of such measures is enforced. The Superintendent or designee may disable the technology protection measure during use by an adult to enable access for bona fide research or other lawful purpose. (20 USC 6777; 47 USC 254)

Note: 20 USC 6777 and 47 USC 254 require districts receiving federal Title II technology funds or E-rate discounts to enforce the operation of technology protection measures. The legislation clarified that nothing in the Children's Internet Protection Act shall be construed to require the tracking of individual students' or adults' Internet use; thus, it appears to be left to the discretion of districts and schools as to whether they wish to track Internet use through personally identifiable web monitoring software or other means. The following optional paragraph may be revised to reflect district practice.

To ensure proper use, the Superintendent or designee may monitor employee usage of technological resources, including the accessing of email and stored files. Monitoring may occur at any time without advance notice or consent. When passwords are used, they must be known to the Superintendent or designee so that he/she may have system access.

The Superintendent or designee shall establish administrative regulations and an Acceptable Use Agreement which outline employee obligations and responsibilities related to the use of district technology. He/she also may establish guidelines and limits on the use of technological resources. Inappropriate use may result in a cancellation of the employee's user privileges, disciplinary action, and/or legal action in accordance with law, Board policy, and administrative regulation.

(cf. 4118 - Suspension/Disciplinary Action)

(cf. 4218 - Dismissal/Suspension/Disciplinary Action)

The Superintendent or designee shall provide copies of related policies, regulations, and guidelines to all employees who use the district's technological resources. Employees shall be required to acknowledge in writing that they have read and understood the district's Acceptable Use Agreement.

(cf. 4112.9/4212.9/4312.9 - Employee Notifications)

Use of Cellular Phone or Mobile Communications Device

It is the intent of this policy that all employees avoid the use of electronic communication devices for personal reasons while on duty.

(cf. 3513.1 - Cellular Phone Reimbursement)

(cf. 3542 - School Bus Drivers)

(cf. 4156.3/4256.3/4356.3 - Employee Property Reimbursement)
